STUDENT BOARD ELECTIONS

In the very near future, the college will hold the annual elections for Student Board offices and other high positions within the individual classes. At this time the Board is occupied with determining the regulations that will govern the Board elections. The first half of the next meeting will be devoted to hearing the opinions of the student body on this all important matter. The second half will deal with nominations; a function always assumed by the Board. The possibilities for changes in the existing system include many ideas for promoting interest in the elections and gaining individuals most qualified for the offices.

They are giving consideration to initiating a general primary before the general election to select nominees, departing from the practice of having the Board select the nominees.

The Board would also like to gather student opinion in regards to electing all of the executive officers at the same time instead of electing the President and Secretary, then the Vice-President and Treasurer, and then the secondary officers (Religious Representative, NFCCS, etc.). The proposed plan will give the candidates for minor Board positions more time in which to present a comprehensive and more extensive campaign. Too often in the past the candidates for many of the offices have been given little or no attention and have been relegated an inferior position in the electoral system.

With the almost daily growth of the college these elections are becoming more and more important and the officers of the school are acquiring more and more responsibility. The completion of the men's dorm, with its obvious advantages, will also bring many problems and subsequently many changes. The executive officers will have to guide this new segment of Marian life into its proper and useful place in student government.

If students will complete the attached ballot, state their preference and place it in the suggestion box outside the Perc it will be greatly appreciated.

M.B.

IT JUST DEPENDS

CHEMISTRY TEXTBOOK STYLE: The puissance of hydrochloric acid is incontestable; however, the corrosive residue is inharmonious with metallic persistence.

CHEMISTRY STUDENT'S STYLE: "Hydrochloric acid eats the hell out of steel".

BASEBALL! BASEBALL! BASEBALL!

The MARIAN Knights Baseball team will meet Hanover College, Saturday, April 11 at 1:30 on our home field.

PROM PENDING

It's not too early to start thinking about the Junior-Senior Prom. Thinking what about it? Well, only that it will be the biggest and most elaborate social function of the year. Saturday, May 9, is the date and 9-12 pm the time. The dance will be held in the Marble Room of the Marott Hotel with Larry Liggett and his orchestra entertaining.

Five Seniors will be vying in the Queen Competition:

Jo Ann Lauck

Bonnie Johnson

Beth Sutherland

Diane Lenarz

Seniors may vote for the Queen the week of May 5th and reservations for the Prom will be taken the Week of April 20. The members of the faculty and administration are also invited to attend.

Athletic Ha Ha !

Three baseball players at different schools had flunked their classes and were dropped from the team. They got together and talked about their misfortune. The man from the University of

Notre Dame said, "It was calculus that got me". The man from Xavier said, "The Trig was too much". The man from Hanover said, "Did youse guys ever hear of long division".

OVERHEARD IN AN OFFICE

Fr. Smith: "Let's not have any more jokes about sex, drinking, and profanity".

Carbon Editors: "OK Father, we're tired of putting this paper out anyway."

OPINION POLL

I would like to see the initiation of a general primary in the Student Board elections.

_____yes _____no

I would like to see all of the Board executive officers elected at the same time.

_____yes _____no

Solution for a Psycho!

Have you returned from Easter vacation and received mid-term grades which arouse suicidal tendencies? In your quest for a high, breath-taking (pun) spot from where you might dash yourself against the street below, may the Freshies suggest that you choose the elegant thirteenth floor of the Severin Hotel, located at South Illinois and Georgia Streets. Specifically, may we further suggest that the evening of April 18 from 9 to 12 is a good time to acquire a happy surrounding. The one deterrent that may alter your inclination is really no big thing (cliché) in view of the excellent position. A slight \$3.00 (special consideration given to couples) will allow you the use of the tastefully decorated balcony which guarantees at least a 130 foot fall, insuring success on the first try. You will be leaving to the wild sounds of the George Nickloff band, which in their off hours provides background for Channel 13's Don Melvain, who is as nutty as the best of the crazy ones.

Of course, there is plenty of dancing room for those not planning to jump until June. Tickets may be purchased next week.

(This message presented as a public service in the interest of psychotics and those wishing to get even for the Turnabout.)

Straight to De point (or Dupont)

Dr. George R. Seidel will be visiting our campus on Monday, April 13. Dr. Seidel is the education manager of the public relations department at Dupont. Everyone is invited to hear him speak from 11:30 to 12:00 in Room 306. His general topic will be "A Winning Team" and will probably involve some discussion of business and free enterprise. See you there!!

A Plea from Vol. 11 & 13 Britannica

What vile, lowly, despicable, diabolical character removed Volume 12 of the new Britannica from the library? Last night a hoard of students descended on the library demanding only what they had a right to expect to find--Volume 12 of the Britannica. Voices were raised in anger, fists pounded on the desk, but it was nowhere to be found--Volume 12 of the Britannica. Why does not the culprit make amends for his foul deed, for no fine will be levied nor punitive action taken, so he need only return the book, the lost book, the needed book--Volume 12 of the Britannica. Please come home, Volume 12.

SHAGGY DOG DEPT.

This afternoon while working on the CARBON the editors saw a man being robbed right here on our own campus.

It was the first robin' we have seen this spring.

Groundbreaking

The CARBON would like to join the rest of Marian College in congratulating all concerned with the beginning of construction on the new men's residence facility. It is something that has been badly needed for many years and we feel that it will alleviate many problems now associated with the school. With the completion of this residence we feel that Marian will measure up to the average individual's idea of college life. It will revamp and revitalize Marian social life and improve the general morale of all those associated with the institution. In plain language, Marian women may truly come to feel the advantages of co-education.

Message from a polymorphonuclear leukocyte

Do you ever feel fed up? Bloated with discontent? Full of uneasiness? Release that internal pressure--give a pint of blood Tuesday in the Women's Lounge. Let it not be said that the Blood Drive has been in vein.

TURKABOUT REJECT

See this poor despondent creature?
She was not always this wretched.
She did not go to the Turnabout Dance.
She was "too busy."
Upon learning of the mirth and gaiety
felt by all who attended,
She was wont to hang herself, but
remembering
What happened to Judas she decided only
to become
A derelict. Poor Derelict.
Don't let this be your fate. It's not
too late--
Turnabout Dance Tonight 8:00 P.M.

AD NAUSIUM

The ocean was rough. As the steward was taking a bowl of soup to a stateroom he lost his balance on the uncertain deck and poured the contents into the lap of an old man asleep in a chair. Keeping his wits the steward tapped the man and said, "I hope you feel better now, Sir".
